RE: RECOVERED FIBER / POST-CONSUMER FIBER CONTENT

Comprehensive Procurement Guidelines (CPG) have been developed by the United States Environmental Protection Agency (E.P.A.) in reference to Recovered Fiber and Post-Consumer Fiber used in the manufacturing of Commercial / Industrial Sanitary Tissue.

Item or Products:	EPA Requires Recovered Fiber %	EPA Requires Post-Consumer Fiber %	Does Response®, Retain™, React™ Meet these Requirements?
Bath Tissue	20-100	20-60	Yes
Paper Towels	40-100	40-60	Yes
Napkins	30-100	30-60	Yes
Facial Tissue	10-100	10-15	Yes

All Response®, Retain™ & React™ Products contain 100% Recovered (recycled) Fiber materials and contain a minimum of 40% Post-Consumer Fiber materials.

Based on current E.P.A. guidelines, our products meet or exceed the E.P.A. Recommended Recovered (recycled) Material Content Ranges on all Towel & Tissue Products.

Sincerely,

Joseph Durkin
